

LIST OF PUBLICATIONS

Knorr,J., Kerber,A.:

Encapsulation of HLW in SiC for long-term immobilization

ICACC-S13-002-2014 (Invited Speaker)

38th International Conference and Exposition on ADVANCED CERAMICS AND COMPOSITES

January 26-31, 2014 Daytona Beach, Florida, USA

Knorr,J., Kerber,A.:

Ceramic nuclear fuel cladding with SiC hollow bodies

ICACC-S13-020-2014

38th International Conference and Exposition on ADVANCED CERAMICS AND COMPOSITES

January 26-31, 2014 Daytona Beach, Florida, USA

SiC Containers for Long-Term Immobilization of High Radioactive and Toxic Waste

SiCeram GmbH, Brochure 2014

Kerber,A., Knorr,J.:

SiC encapsulation of high level waste for long-term immobilization

atw 58 Jg. (2013) Heft 1, Januar, 8-13

www.kernenergie.de

Knorr,J., Kerber, A.:

Ceramic encapsulation of CANDU spent fuel elements

SiCeram GmbH, INFO SHEET, 2013

Knorr, J., Kerber, A., Moormann,R.:

Upgrading (V)HTR fuel elements for Generation IV goals by SiC encapsulation

Proceedings of HTR 2010, Paper 261, Prague, CZ, October 18-20, 2010 and

KERNTECHNIK 77(2012)5, 351-355

www.nuclear-engineering-journal.com/KT110218

Kerber,A., Knorr,J.

SiCANA[®] - Silicon Carbide for Advanced Nuclear Application

SiCeram GmbH PRELIMINARY TECHNICAL DATA SHEET 2012

Knorr,J., Kerber,A.:

Langzeitstabile Zusatzbarriere aus Hochleistungskeramik für HAW-Endlagerbehälter

Vorschläge für die Behälterqualifizierung der Referenzkonzepte in Deutschland, GWT-TUD GmbH und SiCeram GmbH, Broschüre, Mai 2012

SiC encapsulation of high-level waste as supplementary barrier for long-term immobilization

Proposals for upgrading the retention capability of waste canisters of German reference concept
Brochure, May 2012

Kerber,A., Knorr,J.; SiCeram GmbH

Keramische Behälter und Verfahren zur Endlagerung von radioaktivem Abfall

DE 10 2011 115 044 A1; 12780653.7-1556 PCT/EP2012004186

Knorr,J., Lippmann, W., Reinecke, A.-M., Wolf,R., Kerber,A., Wolter,A.

SiC encapsulation of (V)HTR components and waste by laser beam joining of ceramics

Nuclear Engineering and Design 238 (2008) 3129-3135

Knorr,J., Lippmann,W., Wolf,R., Exner,H., Reinecke,A.-M.:

Method of producing by laser gastight and high-temperature resistant connections of shaped parts of a non-oxidic ceramic

United States Patent, US 7,462,255 B2, Dec.9, 2008

Knorr,J., Kerber,A.:

SiC-Barriere zur Immobilisierung von radioaktivem Abfall

GWT-TUD GmbH und SiCeram GmbH, INFO SHEET 2008

Knorr,J., Lippmann,W., Reinecke,A.-M., Kerber,A., Wolter,A.:

Key Technology for (V)HTR: Laser beam joining of SiC

atw 50. Jg. (2005) H.7, 464-465

Lippmann,W., Knorr,J., Wolf,R. et al.:

Laser joining of silicon carbide – a new technology for ultra-high temperature resistant joints

Nucl. Eng. Des. 231 , 151-161

Lippmann,W., Knorr,J., Nöring,R., Umbreit,M.:

Investigation of the use of ceramic materials in innovative light water reactor-fuel rod concepts

Nucl. Eng Des. 205 (2001) 13-22

Kerber,A., Velken, S.V.:

Handbook Sintering of Silicon Carbide

March 1997, edited by Saint-Gobain Industrial Ceramics, Lillesand, Norway
